A Legacy of Success, A Future of Limitless Possibilities

Our history tells a story. For nearly a century, Gold Medal has been the trusted name for concessions. Since 1931, our commitment has been to quality, innovation, and partnership. Built with determination, founder David C. Evans turned \$2,000 into a vision that withstood the Great Depression. What began with simple drink concentrates has evolved into a suite of state-of-the-art concession equipment and supplies that serve businesses of all sizes across the globe.

The Evans family set the foundation for Gold Medal and continues to do so today. We're proud to be family-owned and operated. The third generation of the Evans family now leads the company with the fourth generation also active in continuing the incredible Gold Medal legacy. Our greatest strength lies in our people. With a dedicated team of over 500 employees, we prioritize customer success in all we do.

In our 90+ year history, we've established the cutting-edge technology and top-quality production processes that enable us to design, engineer, and manufacture products that meet the needs of today's competitive marketplace. Our expansive 660,000+ square foot facility provides the infrastructure necessary to deliver exceptional products and services. With every taste and every smile, customers enjoy the fun foods Gold Medal offers.

Whether you're new to Gold Medal or a long-standing partner, we're here to invest in your success. Together, let's shape the next chapter of the concession industry.

The Ready Series

Engage Customers. Minimize Labor. Drive Sales.

The Ready Series is your go-to solution for effortless popcorn vending. These impressive self-serve popcorn machines are designed to streamline your operations while delivering delicious results.

Why Choose the Ready Series?

Effective & Efficient Solutions: The ReadyPop® models combine popping and dispensing in one unit, while the ReadyServe® models hold and serve bulk popped popcorn.

Boost Your Bottom Line: Popcorn is one of the most profitable snacks you can offer, with profit margins exceeding 70%. Plus, with the cashless payment option, you can cater to your customers and increase sales opportunities.

Save on Labor: Experience fresh popcorn on demand. With the push of a button, your customers can dispense their own popcorn, so your staff can focus on other tasks.

Excite Your Customers: Create a fun and memorable experience for your guests. From convenience stores to the cinema, casinos and stadiums, the novelty of self-serve popcorn will draw customers in and keep them coming back for more.

The Ready Series Lineup

ReadyPop®: 16-oz kettle, holds up to 20 gallons of popcorn

ReadyPop® Jr.: 8-oz kettle, holds up to 11 gallons of popcorn

ReadyServe® One: holding cabinet, holds up to 40 gallons of popcorn

ReadyServe®: high-volume cabinet with dual dispensers, holds up to 75 gallons of popcorn

Sno-Bowl

Make Any Day a Sno-Kone® Day

Bring the magic of Sno-Kones to any party or event with the Sno-Bowl! It's the compact and convenient machine that's perfect for party rental stores, fundraisers, and even home use. See what the Sno-Bowl has to offer:

Built for Mobility

The compact size and lightweight design makes it easy to transport. It also includes built-in handles and a cord wrap.

Eye-Catching Design

This is a machine that will get noticed. The bright red top and blue cabinet are made to resemble a Sno-Kone.

Durable Construction

Engineered to last, this machine has a virtually indestructible polyethylene cabinet plus an aluminum shaver head.

Safety Features

Sno-Bowl includes a momentary switch, which ensures the machine only runs when you are actively pressing the button. Plus, the reinforced rubber feet provide added stability.

Make Cleanup Simple

The no-leak drain and easy-clean design means less time is spent cleaning after the event.

**Sno-Bowl is the just-right size for serving up smiles any time!
See it in the Sno-Kone section!**

The Elite Popper® Series

Filtration & Efficiency Redefined

Get to know the Elite Popper® Series – these innovative popcorn machines designed to give you an edge over the competition. How? With the groundbreaking Infinity Filtration System, these large poppers are equipped with unparalleled advantages that benefit operators.

Introducing Infinity Filtration

The Infinity Filtration System eliminates the need for venting out of the top of the unit without sacrificing quality. Featuring a fine-mesh, rinse-to-clean stainless-steel filter combined with a MERV-14 paper media filter, it removes more particulates than most other systems. The exhaust stays inside the popping cabinet, making it safe to place digital signage directly above the popper without constant cleaning.

Engineered for Convenience

Maintenance has never been easier with the EZ Drop-Down Filter. No ladders or special tools required – simply access and replace the filter from the front of the unit. This user-friendly design saves time and reduces labor costs.

Advanced Touch-Screen Controls

Take control of your popcorn production with our intuitive touch-screen interface:

Customizable Recipes: Tailor your popcorn to perfection with adjustable settings.

Clean Assist Mode: Simplify the cleaning process with less labor.

On-Screen Trouble Shooting: Receive real-time alerts and solutions to keep operations running smoothly.

Dual Oil Controls (only with optional dual BIB pump): Select oil sources and monitor the remaining amount in each box.

Ready to transform your popcorn production?

Gold Medal Poppers

Where Taste & Performance Meet

There's a science to popping corn. Gold Medal is invested in providing the latest technologies that will enhance the popping process. We design our machines with a focus on safety, simple operation, and ease of cleaning, all to help you produce the absolute best-tasting popcorn. Throughout the catalog, you'll find special icons identifying the key features of each popper. These pages serve as a reference guide by explaining what each icon means.

Key Popper Features Quick Reference Guide

Big Eye Electronic Heat Control

How much could an extra set of eyes benefit you? In this case, the Big Eye Electronic Heat Control automatically monitors the temperature, providing you with increased precision and control.

Brute Force Motors

Gold Medal has strength where it counts. Large, powerful drive motors mean you have popper performance you can rely upon.

E-Z Kleen Kettles

The secret behind the E-Z Kleen Kettles is the stainless steel cook surface. It's simple to maintain and the long-lasting performance ensures great-tasting popcorn every time.

Fire Suppression

Vent hoods and fire drops can be costly additions. Now, you can protect yourself with the highest level of safety in industry-tested PopClean® poppers with the built-in Fire Suppression System. Ideal for theaters, arenas, stadiums, and more. Fire Suppression is standard on all of the PopClean® poppers.

Flexipop®

It's like two poppers in one! Pop half batches during non-peak times, then flip the switch to pop twice as much for high-demand periods. Your absolute best bet for high-efficiency productivity!

PopClean®

Gold Medal offers the highest level of filtration with PopClean. This unique integrated system functions by trapping and filtering steam smoke and oil vapors created during the popping process. Meets stringent emissions requirements of UL 710B/ EPA 202 (5mg). **PopClean has earned the FDNY Certificate of Approval #5830.**

PowerOff® Control

A popular safety feature that automatically turns off kettle heat after 15 minutes of idle time. See the next page for PowerOff Control models.

Twin-Arm Suspension

Operator safety is the top priority of the double-hung, twin-arm kettle suspension. It prevents accidental oil spills and gives more working room within the cabinet.

Uni-Maxx®

Get the performance you need with a unified kettle and heat element, working together to provide the lowest energy consumption and maximum popping capacity.

Advanced Touch Screen Controls

This intuitive 7" touchscreen display panel is simple to use and provides operators the ultimate user experience. Operators enjoy upgrading to the Advanced Touch Screen Controls because of key features and benefits including: customizable mode of operation; easier to use and train employees; the ability to program and customize recipes; accessibility to videos for quick reference on training and cleaning machine; improved technician diagnostics; back-of-house data; free software updates; customizable exhaust system timeout; and so much more.

BIB Oil Level Sensor & Bucket Pump

You don't have to question what your oil levels are. Located next to the popper controls, this sensor conveniently displays how much oil is left in the bag-in-box (BIB) oils. Available on Elite Popper® series only.

Kettle Guard

Take the extra step in safety with Kettle Guards, which help to prevent accidental kettle burns. Available on large poppers only.

High Top Kettles

Expansion is made easy with high top kettles! Designed for 32-oz and 52-oz poppers, the taller lid creates as much as 30% more space, allowing you to pop to the max.

Salt/Sweet Function

Available on larger electronic popper (i.e., Big Eye) kettles, the salt/sweet function gives you the option to pop sweet popcorn at the proper temperature, preventing sugar from burning.

Which Popper Is Right for Me?

At Gold Medal, we design our equipment to be user-friendly, making it easy, efficient, and cost-effective to implement at any location. But how do you know which popper is right for you? Here are 6 questions you need to ask yourself before you go to purchase a popper. Then check out Gold Medal's popper category selections to see which popper is right for you.

1. How will the popper be used — what venue?

Will it be used at a school concession stand, office, bar, fundraiser, carnival, stadium, zoo, cinema, etc.?

2. Who will be operating the popper?

Volunteers, adults, young adults, bartender, seasonal help?

3. How many servings of popcorn do you need to make in 1 hour?

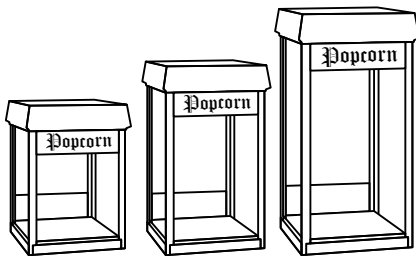

4. How much space do you have for the popper?

Does it need to fit on a counter/does it need to be a floor model?

5. How much electric is available?

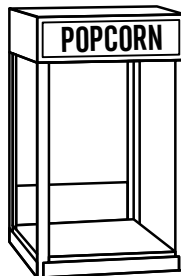

15 amp, 20 amp, 30 amp, etc.?

6. Who will be responsible for cleaning and maintaining the popper?*

Our fire suppression system is an Ansul R-102 wet system. The system charge and arming must be performed by an Ansul certified fire suppression agency. Our customers can go to Ansul.com to locate a qualified local agent. The Fire Suppression System is fully assembled and a tank is provided for the liquid fire suppressant agent. The fire suppression company will fill the tank with 3 gallons of Ansul liquid agent. In addition, they will install the CO₂ cartridge to propel the liquid agent. The standard cartridge is a 101-20 for most of our poppers. If it is a twin popper with a deep well, they will require a 101-30 cartridge. All links and other hardware are provided. The technician will then arm the system. Typically, every 6 months they will come back to inspect the system. The cost for charging and arming the system is the responsibility of the end customer.

Signature Shakes®

Signature Shakes are shake-on flavors that are typically applied after the cooking/baking process. While still great for popcorn, these flavors are also made to shake on burgers, fries, salads, wings, steaks, pastas, seafood, dips, appetizers, and much more. The products are offered in sizes ranging from 4-lb tubs to 25-lb bulk. Select flavors will also be produced in 18-oz restaurant-style shakers.

Cotton Candy Machine Terms 101

Ribbon Heat Element

- Heats up immediately and responds quickly to adjustments
- Best suited for owner/operators that know when and how to adjust the machine
- Element can be damaged if machine is not operated/cleaned properly

Tubular Heat Element

- Takes slightly longer than the ribbon element to heat up and is slower to respond to adjustments
- Best suited for rental customers and multiple users who may not be as familiar with the operation of a cotton candy machine
- Element is almost indestructible
- Featured in all cotton candy machines with "Breeze" in the name

Ingredient Information

Information on allergens and religious documentation.

Food Allergens

The United States Congress passed the Food Allergen Labeling and Consumer Protection Act of 2004 (FALCPA). This law identified eight foods as major food allergens: MILK, EGGS, FISH, CRUSTACEAN SHELLFISH, TREE NUTS, PEANUTS, WHEAT, and SOYBEANS. On April 23, 2021, the Food Allergy Safety, Treatment, Education, and Research (FASTER) Act was signed into law, declaring "SESAME" as the 9th MAJOR FOOD ALLERGEN recognized by the United States. The change was effective on January 1, 2023. All REGULATORY requirements applicable to major food allergens, including labeling and manufacturing requirements, apply to sesame as of January 1, 2023.

As per law, food producers must list food allergens on all food product package labels. A food allergen is any edible substance that causes a person to have an allergic reaction or something to which a person would have a strong aversion. There is no cure for a food allergy; only strict avoidance of the allergy-causing food can prevent an allergic reaction. Anaphylaxis is the most severe type of allergic reaction. It is sudden, severe, and potentially fatal. It results when the body's immune system reacts to otherwise harmless food proteins. The occurrence of an anaphylactic reaction can vary. It can begin very suddenly within seconds of eating a food or occur hours after having ingested the food. Anaphylaxis should always be considered a medical emergency, as it may result in brain damage or death.

Anaphylactic symptoms can include: • Hives • Swelling of the lips, tongue, and throat • Nausea • Shortness of breath, wheezing • Drop in blood pressure • Loss of consciousness

For more information about food allergies visit www.foodallergy.org.

To verify if an allergen is present in a Gold Medal Products Co. product, read the ingredient label or contact your Gold Medal dealer or distributor. Food allergen cross-contamination occurs when any allergen is introduced to another or a non-allergen product. When changing products, identify any and all allergens that exist between products. When products' allergens differ, all contact surfaces, and equipment must be thoroughly cleaned with soap and water to avoid cross-contamination.

Religious Documentation

Many of our products are Kosher and/or Halal-certified. Certificates are available on request, or can be downloaded from our website at www.gmpopcorn.com.

SQF Certified

The Safe Quality Food (SQF) Program is a rigorous and credible food safety and quality program that is recognized by retailers, brand owners, and food service providers world-wide. Recognized by the Global Food Safety Initiative (GFSI), the SQF family of food safety and quality codes are designed to meet industry, customer, and regulatory requirements for all sectors of the food supply chain – from the farm all the way to the retail stores.

Methods Of Shipment

For all shipping and freight rates, please call for pricing.

Truck Lines

For shipments over 80 lbs., truck lines are the recommended method. While prepaid freight can be added to your bill, a handling charge will also apply.

Parcel

FedEx or UPS are our preferred parcel shipping methods. Handling fees will apply to cover additional processing required for parcel shipments. Most supply items and equipment under 75 lbs. are shipped as parcels; however, heavier or fragile equipment will require alternative methods.

Air Freight

Expedited services like Next Day Air or Second Day Air are available at an additional cost.

Methods Of Payment

Gold Medal accepts MasterCard, Visa, Discover, and American Express. To establish an open account, please contact us at 800-543-0862. Please note, we do not offer C.O.D. shipping.
